Petko Todorov

Junior Python Developer

A highly motivated Computer systems and technology graduate seeking a position in a growth-oriented company where I can use my skills to the advantage of the company while having the scope to develop my own skills. As part of my continuous learning, I am currently focusing on improving my proficiency in Python programming. I am confident that my technical knowledge and passion for innovation will enable me to meet the needs of any organization and contribute to its success.

EDUCATION

Software University
Python Developer

2022 - Present   *Sofia, Bulgaria (Remote)*

Courses
- Through my experience with Python, I have gained a comprehensive understanding of data structures such as Lists, Dictionaries, Tuples, and Sets, as well as Queues and Stacks. I have learned Python's OOP principles, including Polymorphism, Inheritance, Encapsulation, and Abstraction, to create modular, reusable, and maintainable code.
